YCL116 S Base

YCL116 S is a table base made of UV resistant resin reinforced by glass fiber. Produced with gas-injection technology. Can be used with any kind of tops. Indoor and outdoor. S size is suitable for 80x80 - 90x90 cm tops. Feet come with a ball joint base that provides a great level of tilt up to 20° allowing their use across a range of surfaces and applications with varying height so that adjustable feet prevent wobbling.

Measures

Tops

Tops is a patented manufacturing process, combines wood, resins and melamine to produce a unique composite to endure weather conditions and surface abrasion. Tops are very safe as it does not shatter like glass. It is resistant to scratch, cigarette burns, bird droppings and all types of food stains. To clean Werzalit all you need is a household cleaner and steel wool.

Tops

Tops is produced by saturating multiple layers of kraft paper with phenolic resin. A layer of printed décor paper is placed on top of the kraft paper before pressing. The resulting sandwich is fused together under heat and pressure (more than 1,000 PSI). Because phenolic and melamine resins are thermoset plastics, the curing process transforms the resin into plastic by a cross linking process that converts the paper sheets into a single, rigid laminated sheet. Thermosetting creates strong, irreversible bonds that contribute to its durability.
